Profile

I have over a year of experience building software web applications. My Experience cuts across different languages like JavaScript, TypeScript, React and Next.js, used in building well-designed and highly scalable web and also different UI libraries for the styling.

Professional Experience

11/2023 – 08/2024
Lagos, Nigeria

Prunedge Limited, Software Trainee Intern

- Actively sought opportunities to improve coding skills by attending workshops and training sessions
- Contributed to a 20% reduction in development time by collaborating with a team of developers in the development and maintenance of software application.
- Utilized version control tools such as Git for effective collaboration among team members.
- Supported team members in troubleshooting complex issues, fostering a collaboration among team members.
- Mentored some of my fellow Interns.

10/2024 – Present
Lagos, Nigeria

Auxano Solutions Technology Limited, Frontend Developer

- Designed and Implemented web application as a web team for all inter-department and customer facing-projects.
- Work closely with programmers and clients to meet project requirements, goals and desired functionality.
- Implemented enhancements that improved web functionality and responsiveness.

Skills
